

1954 CATALOGUE

**FINGERLE LUMBER CO.**

**ANN ARBOR, MICHIGAN**

## OUR 'NEW HOME' PLANNING CENTER IS DESIGNED TO HELP YOU • USE IT FREELY

Our Planning Center can best be described as a modern library of the best material available in books of house plans, cottage plans, garages, home modernization and various building materials. You will also find all of the latest current periodicals such as *The American Home*, *House Beautiful*, *Better Homes and Gardens*, *Living For Young Homeowners*, etc. Our library embraces hundreds of stock plans of all general types such as Ranch type plans, Colonial plans, Modern plans, etc. You will find the much used Weyerhaeuser Plan Service, the National Plan Service, and the Home Planner, Inc., service, listing many attractive, correctly designed homes. FHA approved working blueprints are available for the many homes shown in our various books. We can secure these working blueprints for you for a very nominal cost. We will gladly loan you plan books to take home and use as long as you want them. Our Planning Center is maintained to help you . . . use it freely.

## OUR SECOND ANNUAL CATALOGUE

For many years we had felt the need of issuing a complete, well-illustrated Building Materials Catalogue and so early last year we decided to do something about it and in April of 1953, we prepared and distributed our first catalogue. It had been our feeling that the buying of building materials was sort of a first class mystery to most buyers and particularly the so-called 'Do-It-Yourself' buyer. We well realized that over the past comparatively few years, great changes have taken place in the handling, production and merchandising of lumber and allied building materials. Looking back, within the memory of many of us, the lumber yard handled mostly 'rough' unfinished lumber and each order required special mill-work and no end of detail. Lumber grades were indeed ambiguous and loosely defined and there was no such thing as finding hundreds of patterns 'in stock' ready for delivery as is the case today in the modern Lumber Yard. The grading of lumber is truly an exact science today, policed and administered by numerous trade and grading associations. Stock patterns of moulding, siding, flooring, etc., are milled to standard sizes and are uniform at all times. It's mighty nice to know that you can buy a piece of flooring or siding at our Yard today and realize that you can come back later and buy stock that will exactly match the material you use currently. We certainly hope that you will find this catalogue to be a real help to you in making your Building Material purchases. Preserve it and use it often. We will welcome any suggestions you may be able to give us that will make future issues of more service and use to you.

## WE HAVE TAKEN THE MYSTERY OUT OF LUMBER PRICING

For the convenience of our customers we have priced most lumber items in this catalogue by the "Running Foot." The common practice of pricing lumber by the 1,000 board feet has caused untold confusion among lumber buyers from the time the practice started. Figuring board feet contained in certain sizes is oftentimes a complicated process at best. On the other hand, a buyer with a minimum of figuring can determine the number of running feet his order involves and all he will have to do to arrive at the cost will be to multiply this figure by the cost per running foot.

## PRICES SHOWN SUBJECT TO MARKET CHANGES

Prices in this catalogue are subject to change without notice. If price should be lowered on a particular item, customer will be given advantage of price decline. On the other hand, if conditions beyond our control force us to advance a price, customer placing an order, will be advised of the price change before order is entered for delivery.

## OUR ONE-STOP SERVICE WILL SAVE YOU TIME AND MONEY

Remember that in addition to complete stocks of lumber, millwork, and interior finish we also carry complete stocks of Mason's Supplies, Builder's Hardware, Shelf Hardware and Paint and Varnish. It saves you valuable time to purchase all of your material requirements at one convenient location where there is always plenty of parking space.

## LET US GIVE YOU A FREE ESTIMATE ON THE MATERIALS YOUR JOB WILL REQUIRE

Bring in the blueprints on the home you plan to build or remodel and we will take off a list of all the materials your job will require and quote you our price on same. We have an excellent estimating department and will give you material lists you can depend on. No cost or obligation.

## OUR CREDIT AND PAYMENT TERMS

All charge accounts are due and payable by the 10th of the month following the month of delivery. If you do not have an account with us and would like to open one, we will welcome your application and it will be given our prompt consideration. We allow a 2% cash discount on all cash sales and C.O.D. orders.

## TIME PAYMENT PLAN ON HOME IMPROVEMENTS AVAILABLE

At very small monthly cost you can add just what your home needs, an extra room, cedar-closets, cabinets, cupboards, remodeling, a garage, garage doors, a poultry house, corn crib, or any and all repairs, by using our F.H.A. Plan, with no money down and up to 36 months to pay. We will handle all paper work right here in our office and monthly payments through the bank of your choice. Call us for our free estimating service and further details of the plan.

## TABLE OF MONTHLY PAYMENTS

## NO CHARGE FOR DELIVERY

All prices shown in this catalogue include free delivery to your home or job site in the territory we serve. We operate a modern fleet of delivery equipment, including the Ross Straddle Carrier, which will drop your load of lumber just where you want it as gently as a mother laying her baby in the crib—and all in just a matter of seconds.

# COMMON LUMBER ..... with a Material Difference!

## 1 x 12 SOUND GRADE PONDEROSA PINE SHIPLAP

This is by far our most popular and largest selling shiplap. Being 12" wide, it lays fast and saves you real money. Sound grade shiplap is kiln dried, expertly machined and 100% bright. Many of our customers use this stock for inexpensive paneling and comparable work. Lengths are good and every piece is nicely end-trimmed.

	Running Ft.	100 Ft. Bd. Measure
1 x 12	12¢	\$12.00

## THRIFTY GRADE WHITE FIR BOARDS

Here's a real winner that will make your building material dollar go a long way. This stock is kiln dried and 100% clean and bright. Makes mighty fine sub-flooring and roof board stock. It runs unusually straight and has satisfactory strength. You get maximum value when you use thrifty grade White Fir.

	Running Ft.	100 Ft. Bd. Measure
1 x 6	5¾¢	\$11.50

## SUB-FLOORING AND ROOF BOARD STOCK

No. 2 and Better Yellow Pine or equal grade in Western Lumber such as Ponderosa Pine, White Fir, Douglas Fir or Western Cedar. Thoroughly seasoned, accurately manufactured and surfaced on both sides and edges, insuring stock that runs uniform as to size.

	Running Ft.	100 Ft. Bd. Measure
1 x 4	4 ¢	\$12.00
1 x 6	6¼¢	12.50
1 x 8	8¾¢	13.00

## YELLOW PINE SHIPLAP

1 x 8 Stock. Thoroughly seasoned, nice clean stock. No. 2 and Better grade.

	Running Ft.	100 Ft. Bd. Measure
1 x 8	8¾¢	\$13.00

## ROUGH SAWN GATE AND FENCE BOARDS

1 x 6. Accurately sawn, sound grade Larch. Kiln dried stock. Larch is strong and durable.

	Running Ft.	
1 x 6		9¢

## GROUND & FURRING STRIPS SOFT GENUINE WHITE PINE

¾ x ¾ Grounds	Run. Ft.	1¼¢
1 x 2 Furring Strip	Run. Ft.	3 ¢
1 x 3 Furring Strip	Run. Ft.	4½¢
1 x 4 Furring Strip	Run. Ft.	4¾¢

## WOOD LATH

Well seasoned, softwood. Accurately sawn. ¾" x 1¾". 48" long. Bundle of 50 pieces.

\$1.50

## UTILITY GRADE WHITE PINE

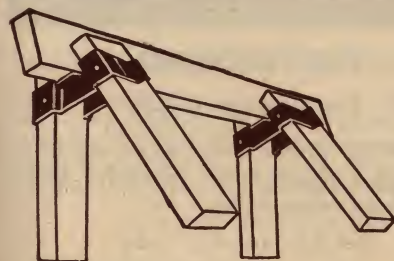

Our lowest grade of genuine White Pine. Fine for fruit room or garage shelving, etc. Very soft and easy to work. A mighty popular grade and we sell a lot of it.

	Running Ft.	100 Ft. Bd. Measure
1 x 6	7¼ ¢	\$14.50
1 x 8	9¾ ¢	14.50
1 x 10	12¼ ¢	14.50
1 x 12	14½ ¢	14.50

## COMMON DRESSED & MATCHED

No. 2 and Better Yellow Pine or equal grade in Western Lumber. Surfaced both sides with tongue on one edge and groove on opposite edge. Our lowest priced "matched" stock. Nice, clean, sound stock, thoroughly seasoned.

	Running Ft.	100 Ft. Bd. Measure
1 x 4	4 ¢	\$12.00
1 x 6	6¼¢	12.50

*Nu-Way*

## SAW HORSE BRACKETS

Use with 2 x 4's to make Saw Horse. No nails, screws or bolts needed. Quickly taken down. Has many other uses.

Per Set \$1.50

## SHELVING GRADE SPRUCE

A low priced, common Lumber of many uses. A good substitute for Standard and Sterling White Pine where cost is an important factor.

	Running Ft.	100 Ft. Bd. Measure
1 x 4	5¼¢	\$16.00
1 x 6	8 ¢	16.00
1 x 8	10¾¢	16.00

# SOFTWOOD FLOORING IN JUST THE GRADE YOUR NEED DICTATES

## CLEAR PLAIN END YELLOW PINE FLOORING

1 x 4 expertly kiln dried. Beautiful clear grade. Note from illustration that this stock is milled with hollow back which insures perfectly flat laying. Makes a fine, long wearing inside floor. Not recommended for exterior use.

Per Running Ft. 9¢

## THREE STAR VALUE!

1 x 4

## END-MATCHED

## YELLOW PINE FLOORING

B&Btr Grade (the highest grade made). This stock is matched on the ends like hardwood flooring. The end-matched feature eliminates the need of breaking joints on joists. Only sawing necessary is at end of run. Can be laid directly over joists without sub-flooring underneath. You save real money and get a beautiful inexpensive floor when you use this item. See this money-saving item on display at our Yard.

Per Running Ft. 6½¢

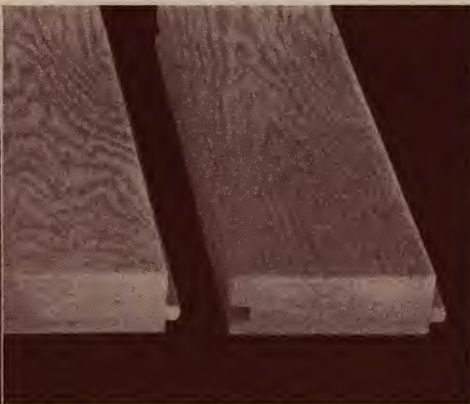

## FIR FLOORING

1 x 4 Clear Flat Grain

Beautiful grade. Expertly machined. Kiln dried. Our most popular Flooring.

Per Running Ft. 8½¢

## THICK FIR FLOORING

5/4 x 4 Clear Flat Grain

Excellent grade. Extra thickness gives much more strength.

Per Running Ft. 11¾¢

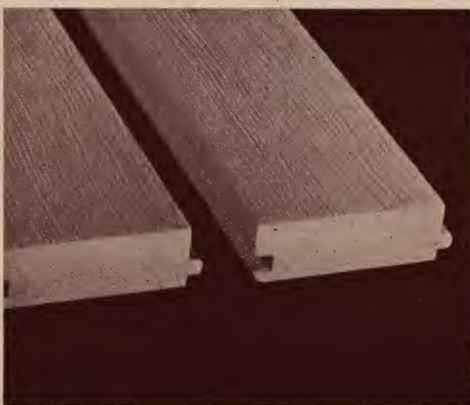

## FIR FLOORING

1 x 4 Clear Vertical Flooring

Best Fir Flooring made. 100% vertical grain face. Long wearing. Ideal for Porch Flooring, Truck beds, etc.

Per Running Ft. 9½¢

## THICK FIR FLOORING

5/4 x 4 Clear Vertical Grain

100% vertical grain face. Wears like a pig's nose. Perfect for flooring truck beds.

Per Running Ft. 13¢

## FIR FLOORING

1 x 4—Lower Grade

"D" Select grade. Has some defects but lays a sound floor. Ideal for attic or storage room floors.

Per Running Ft. 6¢

# PATTERN WOOD SIDING TO DO EVERY TYPE OF JOB

**PATTERN No. 106 FIR DROP SIDING  
C and BETTER (BEST GRADE)**

Commonly called "cove siding." Popular for garage siding. Beautiful grade. Available in two thicknesses.

$\frac{5}{8}$ x 6	Per Running Ft.	11 ¢
1 x 6	Per Running Ft.	13 $\frac{1}{4}$ ¢

**PATTERN No. 116 FIR VERTICAL SIDING  
C and BETTER (BEST GRADE)**

Excellent for vertical siding or partitions. Ideal for making "batten doors." Beautiful grade.

1 x 6	Per Running Ft.	13 $\frac{3}{4}$ ¢
-------	-----------------	--------------------

**"D" SELECT (LOWER GRADE)  
PATTERN No. 106 FIR DROP SIDING**

This grade has a few defects, but with very little cutting makes a sound job, at a real saving.

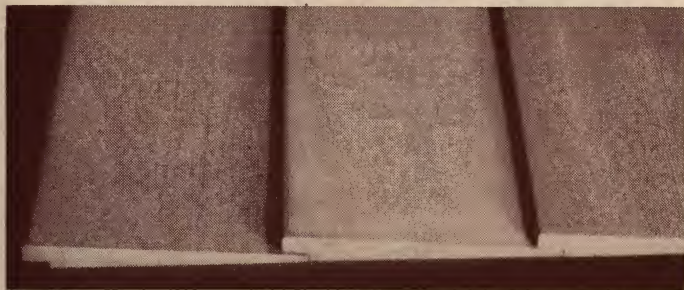

1 x 6	Per Running Ft.	10 ¢
-------	-----------------	------

## END-MATCHED FIR DROP SIDING . . . Is Easiest To Put On — Saves Money Too!

"Clear-Tite" Cove Siding of durable, kiln dried Douglas Fir will save you real money, both in lumber cost and labor. End-matched Drop Siding eliminates completely the need for breaking joints on studs. The only sawing necessary is at the end of the run. There is a minimum of lumber waste when you use "Clear-Tite" End-matched Cove Siding for your garage.

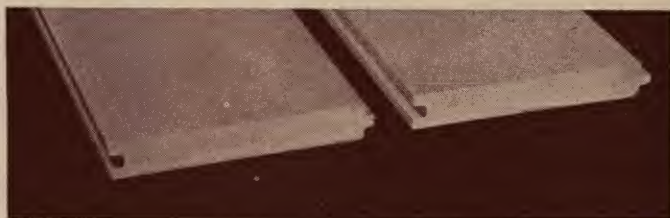

1 x 6	Per Running Ft.	11 $\frac{1}{4}$ ¢
-------	-----------------	--------------------

**PATTERN No. 352 REDWOOD PATTERN SIDING**

Here's a natural! Can be laid directly on studs. Outside appearance matches bevel siding perfectly yet, due to rabbeted feature back, lays flat to stud, eliminating necessity of using sheathing underneath. This strictly clear grade Redwood is truly beautiful to see. Properly kiln dried—it stays in place. Machine work is excellent. Can be painted or stained. Easy to apply.

$\frac{5}{8}$ x 6	Per Running Ft.	10 $\frac{3}{4}$ ¢
-------------------	-----------------	--------------------

**GENUINE WHITE PINE BARN SIDING**

1 x 6 standard grade genuine White Pine, dressed and matched, commonly called "Barn Siding," has many uses. Popular for wood partitions and batten type doors. Sometimes used for smooth paneling work. Standard grade allows a number of reasonably sound knots in each piece but being genuine White Pine, they paint over well. Very durable, soft-textured, and easy to work.

1 x 6	Per Running Ft.	11 $\frac{1}{4}$ ¢

1 x 12	23 ¢	5/4 x 12	31 1/4 ¢

### BUY THE GRADE OF WHITE PINE THAT WILL BEST DO YOUR JOB FOR THE LEAST MONEY

We have noticed that many of our customers order Sterling grade for jobs that could just as well be done with Standard grade. For instance, Standard grade should always be ordered for shelving. Standard grade makes excellent cornice lumber and will easily meet the quality demands of most jobs. Sterling grade should be ordered for such uses as exposed parts of cabinet and cupboard work where the user does not want to stand the expense of clear White Pine. Buy White Pine wisely, save money!

## OUR HIGHEST GRADES OF KILN DRIED WHITE PINE FINISH LUMBER

### "C" SELECT KILN DRIED WHITE PINE

Our best grade of White Pine Finish Lumber. Each piece is practically clear of any type of defect. Each piece can be used in its entirety without cutting. Soft-textured, beautifully machined, surfaced four sides. You can't buy better White Pine Finish than Fingerle Lumber Co. "C" Select—comes in 2 to 16 foot lengths.

# KNOTTY-WHITE PINE PANELING FOR WALLS OF CHARM

## COLONIAL GRADE KNOTTY-PINE

THE BEST GRADE OF KNOTTY-PINE PANELING YOU CAN BUY.  
MADE FROM CAREFULLY SELECTED GENUINE IDAHO WHITE PINE

Beautiful Idaho White Pine has a tradition of widespread use for high grade interior paneling in homes, clubs, public buildings and churches. Excellence in line and contour, smoothness of surface, and the best in workmanship are the appearance requisites in fine paneling, which gives any room its basic style. Design in all cases is important but, in common with all interior finish, natural properties and characteristics of the wood are a very real element in producing a given atmosphere. The material selected from the Idaho White Pine log to be seasoned properly and run into "Colonial Grade" Knotty-Pine Paneling is of very uniform texture and contains only sound knots of pleasing appearance. In selecting this fine grade, distribution of knots is carefully considered. All of our paneling is run with the new and very popular WP-6 joint. The easy adaptability of Idaho White Pine to the wide variety of finishes and color tones is just one of the many reasons why it's so popular for handsome paneling. "Colonial Grade" Idaho Knotty-Pine Paneling is particularly attractive in a natural finish.

Comes to you Random Width, 6", 8" and 10", Random Length

**\$27.50 PER 100 BOARD FT.**

Add \$2.00 per 100 Ft. for Machine Drum Sanding

### WE'LL HELP YOU ESTIMATE YOUR JOB

A telephone call will bring one of our experienced men to your job to help you estimate the quantity you will need to do your job.

## STANDARD GRADE KNOTTY-PINE

### Our Medium Priced Grade of Knotty-Pine Paneling

There's friendly informality in every knot of easy-to-live-with Western Pines. And there's everlasting beauty, too. Whether you're remodeling or building anew, specify these happy woods for your house. Upstairs, downstairs or in milady's kitchen, they'll reward you with the same durable, care-free service . . . the same unending enchantment. And the range of color styling is limitless. The mellow, fine-grained Western Pines may be painted, stained or enameled to your selection. Or wax-rubbed to a satiny sheen in their own natural color.

Comes to you Random Width, 6", 8" and 10", Random Length

## KNOTTY CEDAR PANELING

**CHARACTER GRADE** Knotty Cedar Paneling is made from the finest Idaho Cedar. The charm of Cedar paneling emanates from the semi-rustic character of the Cedar grain and Cedar knot. Idaho Cedar paneling contains many beautiful knots, no two exactly alike. A Cedar knot tends to chip somewhat when being run through the moulder, the end result being a pleasing rustic appearance. Our Cedar paneling is run in the popular WP-6 pattern producing a pleasing shadow effect at the joint. Cedar paneling is easy to install and easy to finish.

Comes to you Random Width, 6", 8" and 10",  
Random Length

**\$24.00 PER 100 BOARD FT.**

Add \$2.00 per 100 Ft. for Machine Drum Sanding

## COTTAGE GRADE KNOTTY-PINE

Knotty Ponderosa Pine is our lowest priced paneling. This stock is kiln dried and beautifully manufactured. It is machined with popular WP-6 edge. Can be used for either interior or exterior work. Can be either stained to produce a darker finish or finished very light natural.

Comes to you in Random Widths, Random Length

**\$17.50 PER 100 BOARD FT.**

# CALIFORNIA REDWOOD . . . for SMART INTERIOR OR EXTERIOR WALLS

## 1 x 10 V'D EDGE REDWOOD MATCHED

Clear Grade California Redwood. Photograph shows this fine material being used for interior wall paneling, in natural finish. Note the beautiful grain of the wood. This stock works equally well for exterior siding. One face is V'd on edges, one face is smooth and without V'd edge. Either face can be laid "out."

## DURABILITY

The heartwood of redwood possesses an exceptionally high degree of decay resistance. The U.S. Forest Products Laboratory classifies the generally used native woods into five classes in accordance with the resistance of their heartwood to decay. Redwood is in the highest group which includes those woods the heartwood of which is "durable even when used under conditions that favor decay."

Per Running Ft. **31¼¢**

## 1 x 6 V'D EDGE REDWOOD MATCHED

This fine stock is clear grade and expertly kiln dried. One face has V'd edges, other face is smooth. Either side can be laid as face side. Mighty nice for modern exterior boarding as shown in photograph. Equally nice for interior

wall paneling. California Redwood is soft-textured, beautifully grained and easy to work.

Per Running Ft. **16¼¢**

## STRIATED REDWOOD MATCHED

¾" x 6", this stock is run from strictly clear kiln dried California Redwood. Has very attractive "raked," machined face. This is definitely an item of many uses. Ideal for exterior vertical siding or equally good for interior wall paneling. Soft-textured and exceptionally straight, this stock is easy to work and put in place.

## TOP QUALITY OAK FLOORING

*From the Largest and Best Manufacturers*

### SELECT GRADE OAK FLOORING

$2\frac{5}{32}$ " x  $2\frac{1}{4}$ " 100% Red Oak. Very even color with beautiful grain. Perfect machine work.

Per 100 Board Ft. **\$27.50**

### NO. 1 COMMON GRADE OAK FLOORING

$2\frac{5}{32}$ " x  $2\frac{1}{4}$ " 100% Red Oak. Not as even in color as our select grade. Machine work is excellent.

Per 100 Board Ft. **\$23.50**

### NO. 1 & BETTER OAK FLOORING SHORTS

$2\frac{5}{32}$ " x  $2\frac{1}{4}$ " 15" average length. Mixed red and white oak. Perfect machine work. Lays fast. The fact that all pieces are short produces attractive color blend.

Per 100 Board Ft. **\$18.50**

Our Hardwood Flooring is expertly manufactured on latest type high speed machinery from the best stands of timber, properly seasoned. Each bundle is grade and trade marked and bears official stamp of Hardwood Flooring Manufacturer's Association. It's easy to lay our flooring for it is constantly checked behind the machine, when manufactured, for perfect alignment of tongue and groove and end matching. It's easy to install. Nail each piece on edge just above tongue with nail at an angle. The next piece covers the nail head.

### FLOORING NAILS

LAY HARDWOOD FLOORING WITH FOLLOWING NAILS:

#### 8 D Casing Nails

Figure 3 lbs. to 100 Ft. Flooring—Per lb. **14¢**

#### Screwtype Case Hardened Flooring Nails

Figure  $2\frac{1}{2}$  lbs. to 100 Ft. Flooring—Per lb. **40¢**

### PRE-FINISHED OAK FLOORING

Lay pre-finished Oak Flooring in the afternoon and have a dance on it the same night. It's completely factory finished, even including the waxing.

$2\frac{5}{32}$ " x  $2\frac{1}{4}$ ", Standard and Better grade

Per 100 Board Ft. **\$32.50**

### HARD MAPLE FLOORING

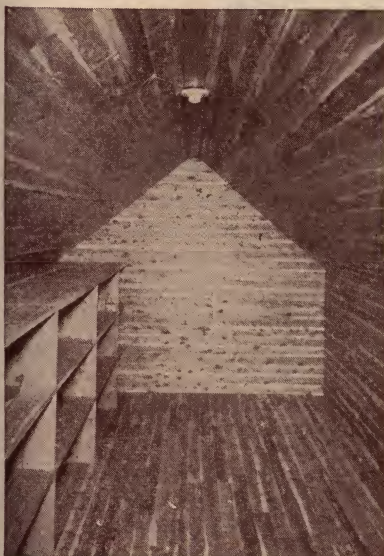

$2\frac{5}{32}$ " x  $2\frac{1}{4}$ " Select Grade. Excellent Manufacture

Per 100 Board Ft. **\$31.50**

### How to Figure Amount of Flooring Needed

Multiply width of room by length, add  $\frac{1}{3}$  to this figure and you have amount needed. Example—for a room 10 ft. x 12 ft., multiply 10 times 12, and to this 120 ft. add  $\frac{1}{3}$  or 40 ft., making total of 160 ft. needed.

## IT'S EASY TO DO-IT-YOURSELF with . . . . . OUR END-MATCHED AROMATIC CEDAR CLOSET LINING

Aromatic Cedar Closet Lining is produced exclusively from Tennessee Aromatic Red Cedar (*Juniperus Virginiana*), the only wood that is recognized by science as containing sufficient quantities of moth-stifling natural oil to be effective when used in constructing moth-proof storage facilities. In order to retain all of the valuable oil of cedarwood in the finished product, carefully graded Supercedar lumber is scientifically dried in kilns especially adapted to do the job. Our Cedar Closet Lining is  $\frac{3}{8}$  of an inch thick, tongue and grooved, and end-matched. It is packaged in bundles of 40 surface board feet and paper wrapped for protection in handling. To arrive at number of surface board feet your job will require, determine number of square feet to be covered and add 20% to this amount.

## MATERIAL FOR TOPS

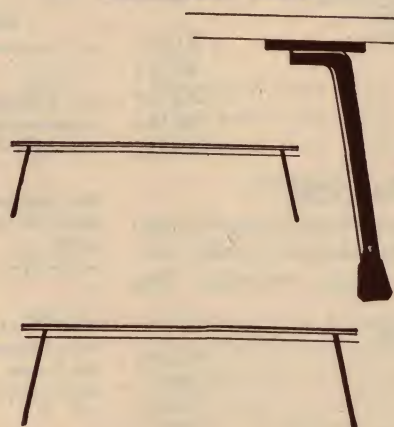

3/4" plywood makes fine table tops. Buy it in the size and wood you want. Turn to page 14 for price schedule on various hardwood plywoods. We have edge moulding in stock in various woods. You save money buying plywood by the square ft. for your table rather than buying factory packaged "Top Kits." See page 25 for prices on flush doors which are commonly used with Damo legs to make beautiful dining room tables.

## DURALL TENSION SCREENS

The Durall Tension Screen is the most important development in keeping insects out of homes since wire was first woven centuries ago. Duralls are safer and easier to install because they go on from inside the house. Two simple lever turns and the screen grips the window frame with tight, bug-proof seal. They cost less than old fashioned screens. Duralls are aluminum—can't rust or stain and they never need painting. Because Durall screens have no side frames, they roll up for easy storage.

### GOOD HOUSEKEEPING SEAL OF APPROVAL

Duralls carry the Good Housekeeping seal of approval. They are woven with famous "ALCLAD" wire in 18 x 14 mesh, with rigid, non-fraying multi-strand edge. All hardware is made of "ALCLAD" aluminum and beautiful, lifetime stainless steel. Duralls have been subjected to the roughest tests including six years of extreme exposure at the seaside and in seawater and have come through in excellent condition.

# SLIDING AND FOLDING DOORS INCREASE LIVING SPACE

## "SPACEMASTER" FOLDING DOORS

Make that Small Room Larger with the  
NEW "SPACEMASTER" Quality Door

### EASY TO CLEAN

Plain soap and water removes even the worst stain from "Spacemaster's" durable vinyl-fabric surface.

### EASY TO INSTALL

You can do it yourself with a screwdriver in a few minutes' time. "Spacemaster" comes complete. No extra hardware to buy.

Made by MODERNFOLD, only Spacemaster gives you all these Superior Features at the lowest price in the history of Quality Folding Doors.

- Sturdy steel frame with balanced box hinge construction that insures quiet, easy operation.
- Tough, durable vinyl covering (in "decorator gray") that resists fading, cracking and peeling.
- Quiet "sure-stop" glides—door will not creep or stick open or closed.

For Openings 2'-6" x 6'-8½"	\$24.95
For Openings 2'-8" x 6'-8½"	27.95
For Openings 3'-0" x 6'-8½"	27.95
For Openings 4'-0" x 6'-8½"	38.50

Also can be used in pairs to fit any opening up to 6 feet wide.

## STEEL SLIDING CLOSET DOOR UNITS

These units come to you complete in one carton, including hardware. Easy to install, these are real space savers. Door height units come in beautiful BIRCH finish to match natural Birch flush doors.

Ceiling height units come in Prime-Coat finish so you may paint them to match your walls.

# CURTIS SILENTITE CONVERTIBLE WINDOW

A BRAND NEW kind of window designed to meet the needs of contemporary design. Install it singly or in any desired combination. Its unique construction permits stacking into almost unlimited combinations of weathertight, easy-to-install multiple openings with any of the sash operating or stationary as desired. QUALITY has been built into every feature of this NEW window, yet it is one of the very lowest in cost.

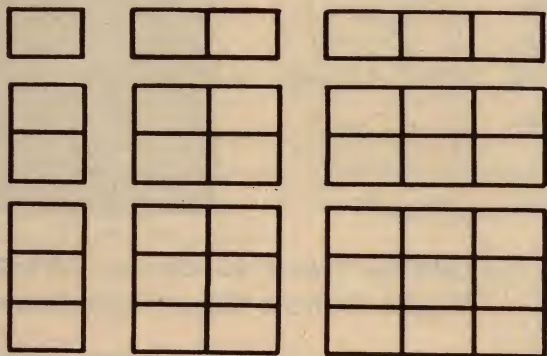

## USE IT AS AN AWNING WINDOW

Note how easy it is to clean the window from the inside. Optional crank operator is detachable from sash to allow sash to swing straight out for cleaning.

## USE IT AS PANEL OR STRIP WINDOWS

Simply stack the window in awning position as high and wide as you need.

## STRIP AND PANEL CONVERTIBLE COMBINATIONS

These can be easily assembled using any number of stationary or operating units in combination. By selecting the right sizes almost any overall opening is possible.

## USE OUR FREE ESTIMATING SERVICE

Bring your house or remodel plans to FINGERLE LUMBER CO. for a complete and accurate material list and price. No cost or obligation for this service.

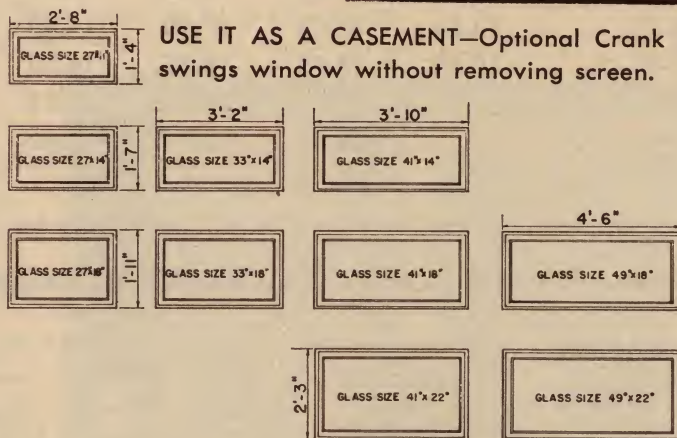

## USE IT AS A COMBINATION

Sash swing out or in, right or left, as wanted. Convertible windows are fully weatherstripped and come venting or stationary.

USE IT AS A CASEMENT—Optional Crank operator swings window without removing screen.

For Mullion Units — Double Price of Single.

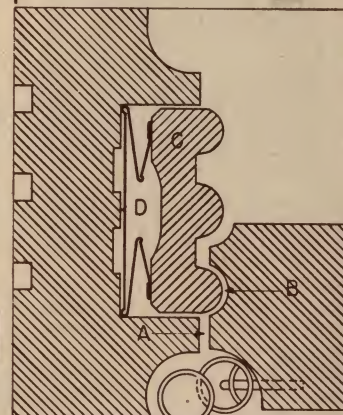

\* A complete Silentite Window Unit includes frame, sash glazed and back-puttied, all wood toxic-treated, complete weatherstrip, spring sash balances, exterior trim for frame building or brick. Interior trim is not included in above prices.

## NOTE THESE POINTS OF SUPERIORITY

1. **Finger-Tip Operation** throughout the life of the window!
2. **Maximum Weather Tightness**—Even in zero weather and high winds!
3. **Minimum Heat Loss** through frame and sash because wood insulates!
4. **Finest Material Throughout** with 1 3/8" thick jamb and 1 3/4" thick sill!
5. **Easily and Quickly Installed** in any type of construction. Saves money!
6. **Pre-Fit Screens, Storm Sash, and Combination Units** available!
7. **Surprisingly Low in Cost**—Lower than many competitive units!
8. **Backed by the Know-How** of the best known name in woodwork!

## SILENTITE WEATHERSTRIP

Note the Z type weatherstrip which also acts as a soft tension spring pressing the sliding bar (C) firmly against the sash, sealing contact point (B) so that no air can pass between bar and sash or bar and frame. 1/8" clearance at (A) prevents sash from binding.

# HEADQUARTERS FOR JOHNS-MANVILLE BUILDING MATERIALS

## JOHNS-MANVILLE THICK BUTT ASPHALT SHINGLES

Johns-Manville Asphalt Thick Butt Shingles are of the strip type. Each strip has three square-cut butts which are extra heavy. The base is selected felt of Johns-Manville's own manufacture. This is saturated, then coated with refined asphalts. Mineral granules are firmly embedded in the asphalt. The butts are given a second coating of asphalt and a second coating of colorful, fireproof mineral granules. This gives double protection to the exposed butts. Johns-Manville Thick Butts weigh approximately 210 pounds per square. Packed three bundles to the square. One square will lay 100 square feet of roof area.

### WIDE RANGE OF SOLID AND BLENDED COLORS

Spruce Green—Black—Slate Blend—Green Blend—  
Blue Blend—White Blend. Square ..... **\$8.25**

AT NO EXTRA IN PRICE

## JOHNS-MANVILLE ASBESTOS SIDING SHINGLES

Johns-Manville Smoothgrain Permatone Shingles are smooth to the touch, yet to the eye have a textured, beautifully grained look that adds much to any home. Moderately priced, the siding is easy to apply and easy to maintain since the smooth surface resists soiling. No special tools are necessary. Anyone familiar with ordinary tools can apply this siding stocked in the following attractive colors:

Per Square **\$14.95**

### ASBESTOS SIDING METAL MOULDINGS

Outside Corner ..... Running Ft. **10¾¢**  
Window Trim ..... Running Ft. **4¾¢**

## AMERICAN COLONIAL ASBESTOS ROOF SHINGLES

American Colonials are rigid Roofing Shingles made of asbestos and cement. Each shingle is actually a strip equivalent to 5 ordinary shingles. The design of the shingle assures quick, economical application. Only 4 nails are needed per shingle. The shingle has a striking graining that adds to the charm and character of any home.

### BUILT TO LAST 40 YEARS PLUS

American Colonial Shingles are made of two practically imperishable materials, asbestos and cement. They have the permanence of stone. They are weatherproof, fire-resistant and rotproof. J-M Asbestos Shingle Roofs, applied forty years ago, currently show not one trace of deterioration. Available in three attractive colors from stock. Now almost every homeowner can afford the beauty and long-range economy of a lifetime Johns-Manville Asbestos Shingle Roof.

★ Green Blend, Red Blend, Black Blend. Square . . . **\$18.50**  
★ Starter for Asbestos Roof Shingles. 100 Running Ft. . . . **9.75**  
★ Hip and Ridge for Asbestos Roof Shingles. 100 Running Ft. . . . **19.50**

## COLORBESTOS SIDING SHEETS

Designed by Johns-Manville for outside walls of new homes, Colorbestos sets a style of its own. The large units with color-fast ceramic granules embedded in the asbestos cement sheet give a rich, textured appearance, yet the surface is actually smooth to resist soiling. Maintenance costs are reduced since no preservative treatment is needed. In addition to its distinctive appearance, Colorbestos resists all kinds of weather—won't burn, rot or rust. Stocked in the following colors:

Heather Green—32" x 96" Sheet. Each . . . **\$4.16**  
Autumn Brown—32" x 96" Sheet. Each . . . **4.16**

NEW ITEM

## JOHNS-MANVILLE ASPHALT SATURATED FELT

## PLASTERBOARD FOR DRY-WALL CONSTRUCTION

Plasterboard is an all-purpose fireproof wallboard made with a gypsum core enclosed in tough paper. It produces a finished surface, ready to be painted or wall papered. The board at the joint has a recessed edge which can be completely concealed by using Perf-A-Tape joint system. Nail head indentations can be completely concealed by using Perf-A-Tape joint cement. Plasterboard produces a strong rugged wall or ceiling. Many builders are now using plasterboard dry-wall construction instead of lath and plaster wall construction. Advantages are faster construction, drier construction and the elimination of plaster cracks.

### $\frac{3}{8}$ " PLASTERBOARD

4' x 8'—4' x 10' Sheets. Sq. Ft. . . . . 5 $\frac{1}{2}$ ¢

### $\frac{1}{2}$ " PLASTERBOARD

4' x 8'—4' x 10'—4' x 12' Sheets. Sq. Ft. . . . . 5 $\frac{1}{2}$ ¢

## PERF-A-TAPE JOINT SYSTEM

The Perf-A-Tape system makes unit wall and ceiling interiors possible by joining plasterboard panels together. It is also used for reinforcing and concealing plaster cracks. In either case, the system makes joints invisible under paint, paper, enamel or other decoration. It is the modern method of providing seamless and crack-resisting interiors quickly, at low cost, with minimum muss or trouble.

### No. 60 SET—

(Necessary Tape, Cement and Application Knife To Apply 60 Ft.) . . \$1.75

### No. 250 SET—

# Headquarters for JOHNS-MANVILLE BUILDING MATERIALS

## NEW CEILINGS FOR OLD!

### With JOHNS-MANVILLE DECORATIVE CEILING TILE

J-M Ceiling Tile is pre-decorated in beautiful soft ivory color, ready to use. Easy to apply over old ceilings or on new work. Special lightning joint conceals all nails or staples. J-M Ceiling Tile is an ideal material to cover unsightly cracked plaster ceilings. Apply wood furring strips over old ceiling and then apply ceiling tile directly to furring strips. J-M Ceiling Tile is available in three sizes—12" x 12"—16" x 16"—16" x 32".

Flame-Resistant Finish at No Extra Cost

Per Square Ft. **11¢**

### JOHNS-MANVILLE PERFORATED FIBRETEX TILE

These attractive ceiling panels are perforated to absorb unwanted noise, and at the same time provide a decorative ceiling. The panels are 12" square and come with a white, factory-applied finish that requires no further decoration but may be painted without affecting the noise-quieting advantages. Fibretex panels may be nailed or stapled in place and have the lightning joint that conceals the fasteners. Requires no special skill to apply them. Suitable for new work or may be quickly and easily applied right over existing ceilings. In use, Fibretex panels are easy to keep clean. Smudges can be removed by rubbing with an ordinary gum eraser. Detailed instructions included in every package.

Per Square Ft. **18¢**

### JOHNS-MANVILLE GLAZECOAT WALL PLANK

Glazecoat Wall Plank is a J-M insulating board product with a FLAME-RESISTANT FINISH at no extra cost. The new ingredients of this remarkable finish also make it smoother, harder, more durable and beautiful. Available in beautiful soft colors the plank needs no further decoration. Glazecoat Wall Plank has square ends. Long edges have the lightning joint which conceals nails and expedites alignment. The beveled edges provide a neat "V" groove between planks. Ideal for completing unfinished areas such as attics and basements. For remodeling or refinishing worn out interiors. For application over framing or existing surfaces, furring strips are required. Detailed instructions included in each package.

Per Square Ft. **11¢**

### BUILD THOSE EXTRA ROOMS WITH J-M INSULATING BOARD

Building extra rooms or remodeling is easy and inexpensive when you use J-M Insulating Board. Made of tough, clean Pine fibres, this superior building board is unusually strong and easy to work. It nails nicely, saws with a clean straight edge. The coated surface of the board is hard, smooth, and withstands tough usage. It takes paint easily, requires no priming. Beautiful ivory finish. Comes in 4' x 8' sheets, 1/2" in thick. Has flame-resistant finish.

Per Square Ft. **7 1/2¢**

### WEATHERTITE SHEATHING

Made of tough Southern Pine fibres bonded together with special bituminous compounds,

Weathertite Sheathing is a large, tough board which protects the house where protection is most important. This J-M Insulating Board Sheathing is nailed directly to the studding. Because of its insulating

qualities, Weathertite helps prevent the passage of heat and cold through the walls. This sheathing comes in 2' x 8' sheets and is full 2 3/4" thick.

Per Square Ft. **12¢**

Also available in 1/2 inch thick stock in 4' x 8' sheets at **7 1/2¢ Per Square Ft.**

## THERE'S A TYPE OF HARDBOARD FOR ALMOST EVERY JOB

Made of long clean wood fibres thoroughly felted together and compressed under hundreds of tons of pressure at a high temperature, making a smooth, hardboard; brown in color. Easy to saw to size and can be nailed, even close to the edges without splitting. Use tempered board when board will be exposed to moisture or dampness.

### PLAIN HARDBOARD

Denser than most woods. Smooth surface. For interior walls, ceilings, cabinet work, etc. Available 2' x 4', 3' x 4', 4' x 4', 4' x 8', 4' x 12'.

1/8" Thick—Sq. Ft. 8 1/2¢

### TEMPERED HARDBOARD

Oil tempered to extra hardness; greater strength, abrasion and weather resistance. Can be used for exterior work. Available 2' x 4', 3' x 4', 4' x 4', 4' x 8', 4' x 12'.

1/8" Thick—Sq. Ft. 11¢

1/4" Thick—Sq. Ft. 20¢

### PANELWOOD

A low-cost panel material for walls and ceilings. Ideal for converting unfinished space into attractive rooms. 1/4" thick, 4' x 8'.

Sq. Ft. 11¢

### LEATHERWOOD

Offers the luxury and rich appearance of Spanish-grain leather in rigid panel form. Unlimited design possibilities in homes, schools, stores, offices, etc. 1/8" thick, 4' x 8'.

Sq. Ft. 15¢

### TEMPERTILE

Oil tempered for durability and moisture resistance. Score lines in large panels form attractive 4" tile pattern. Ideal for bathrooms, kitchens. Available 2' x 4', 3' x 4', 4' x 4', 4' x 8', 4' x 12'.

Sq. Ft. 13¢

### BLACK TEMPERED HARDBOARD

Tempered to extra hardness. Even black color. Ideal for counter tops where hard wear is demanded. 1/8" thick, 4' x 8'.

Sq. Ft. 15¢

## Weatherproof HOMASOTE

Homasote gives you both insulation and structural strength in a single top-quality building material. Weatherproof Homasote can be used equally well for interior or exterior work. Homasote is a lightweight material that works very easily with ordinary carpenter tools. Its uses are varied and many. Easy to decorate when used for interior work. Easy to paint when used for exterior work. Homasote is 1/2" thick and is stocked in 4 x 8 ft. sheets.

Sq. Ft. 11¢

### FIBRE BOARD (BEAVER BOARD)

This board has been manufactured for many years. In fact, it was one of the first types of wallboard to reach the market. Largely used for decorative and display work. Used extensively by sign painters, stores and students for such uses as Homecoming Weekend decoration and display. Stocked in 4 x 8 ft. sheets. Easy to work. Easy to saw.

3/16" Thick—Smooth Surface. Sq. Ft. 6¢

3/16" Thick—Pebbled Surface. Sq. Ft. 7 1/2¢

1/4" Thick—Pebbled Surface. Sq. Ft. 10¢

### NU-WOOD CEILING TILE

Pre-decorated Nu-Wood Tile is ideally suited for ceiling applications. The beautiful white staylite finish distributes light evenly over entire area without glare. Nu-Wood Tile has a wide flange edge for concealed nailing. Can be adapted to any room shape, odd or even, and is easily cut to fit around bothersome projections. Stocked in 12" x 12" size, 1/2" thick, which is most practical size.

Sq. Ft. 11¢

# INSULATE WITH J-M ROCK WOOL BATTS FOR YEAR 'ROUND COMFORT

**J-M FUL-THICK  
SPINTEX ROCK WOOL  
BATTS**

Spintex Insulation is made of long fibre rock wool, an original J-M development. These fibres mean lighter weight, superior strength and stability, and greater resilience. Each unit has cemented to it a vapor barrier membrane with projecting flanges on the long sides for stapling or nailing. We stock J-M Spintex Ful-thick batts in 15" x 48" and 23" x 48". Carton packed.

Sq. Ft. **9¢**

**J-M  
SPINTEX  
SERVICE BLANKET**

Johns-Manville Spintex Service Blanket gives you a lot of insulation for little money. Approximately 1½" thick. Backed with heavy vapor seal. Has projecting flanges for easy fastening. Stocked 15" and 23" x 96".

Sq. Ft. **5¼¢**

## LOOSE ROCK WOOL

A loose-fill type of rock wool used for hand packing in small spaces around windows, doors, plumbing, etc. Vermin-proof and fireproof.

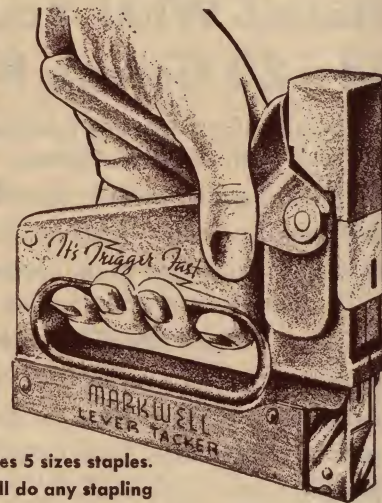

Per 35 Lb. Sack **\$1.25**

Granulated Rock Wool—Pouring type.

Per 40 Lb. Sack **\$1.55**

**SAVE TIME! APPLY BLANKET OR BATT INSULATION WITH A STAPLING TACKER—WE'LL LOAN IT TO YOU FREE**

A Markwell Stapler will enable you to do certain "Tacking Jobs" in just a fraction of the time required if old-fashioned hand methods are used. Ideal for tacking in Balsam-Wool or Rock Wool batts or blankets—also fine for putting on Johns-Manville or Nu-Wood Ceiling Tile. We will gladly loan you a staple gun for use to apply material purchased from us at no charge for gun. You simply pay for the amount of staples you use.

**TYPE L-3 TACKER.** For all jobs. Uses 5 sizes staples. This stapler is trigger fast and will do any stapling job well and fast.

**\$14.00**

Type L-3B Staples—5/16" Legs (Box of 5,000) . . . . . **\$3.75**

## YOU CAN INSULATE YOUR ATTIC IN AN AFTERNOON WITH ZONOLITE. IT POURS IN!

Zonolite Granular Fill Insulation is a lightweight, free-flowing material. You can insulate your own attic in an afternoon with no trouble at all. Just pour lightweight Zonolite directly from the bag between attic joists and sidewall studs . . . flows freely and snugly around pipes, wiring and braces . . . no heat leaks left. Once in place, Zonolite is there to stay. In addition Zonolite is 100% fireproof . . . it actually snuffs out flames. Comes packed in paper bags. One bag covers 20 square feet at the most economical thickness of 2½ inches.

# BALSAM-WOOL ... SEALED INSULATION

Balsam-Wool Blanket Insulation is a flexible type insulation. The felt insulating mat is made from new wood fibres chemically treated to resist rot, termites, vermin and for fire retardance. It is completely enclosed on both sides and edges with heavy asphalt saturated and coated kraft liners. Special spacer flanges assure uniform air spaces on both sides of blanket when applied to framing lumber.

Balsam-Wool Fibres are permanently processed into a fleecy mat which is manufactured to a controlled uniform density of 2.2 pounds per cubic foot. 92% of its volume is dead air. Balsam-Wool is the practical equivalent of pure sheep's wool in insulating value. Its high efficiency is permanently assured by its exclusive sealed feature and its foolproof application method.

We recommend the use of Standard Balsam-Wool for insulating side walls and double-thick Balsam-Wool for ceiling area insulation where the heat loss is much greater.

## FASTENING AND SEALING

Balsam-Wool is stapled or nailed at top and on both sides to framing members, a positive foolproof, one-man application. We will be glad to loan you a staple gun to apply the Balsam-Wool you order from us at no charge.

Standard Balsam-Wool—16" or 24" . . . . . Sq. Ft. **6-4/5¢**

Double-Thick Balsam-Wool—16" or 24" . . . . . Sq. Ft. **9 ¢**

## LOUVRES PROTECT INSULATION, PROVIDE PROPER VENTILATION

OUR LOUVRES ARE MADE OF HEAVY GAUGE ALUMINUM

Louvres prevent damaging moisture from condensing on insulation and reducing efficiency. Louvres keep buildings much cooler in summer.

(A) WALL LOUVRES—Heavy Aluminum. Fit Flush. Have Built-In Screen.

8" x 8"—Ventilates up to 150 Sq. Ft. . . . . \$1.25

8" x 16"—Ventilates 150 to 350 Sq. Ft. . . . . 1.75

12" x 18"—Ventilates 350 to 550 Sq. Ft. . . . . 2.25

(B) ADJUSTABLE GABLE LOUVRE—Heavy Aluminum. Screening Included.

Small Size—Ventilates 400 Sq. Ft. . . . . 4.75

Large Size—Ventilates 600 Sq. Ft. . . . . 5.50

(C) SLANT TYPE ROOF LOUVRE—Aluminum. Has Built-In Screen.

Ventilates 150 Sq. Ft. . . . . 2.35

(D) MIDGET LOUVRES—Aluminum. Built-in screen. Fine for ventilating roof overhang. The proper ventilation of this dead air space prevents accumulation of heat and moisture and thus maintains the efficiency of insulation and helps to combat moisture blistering of paint and "dry rot" fungus. Install 5 or 6 feet apart. Midget Louvres can also be used to ventilate sidewalls where there has been paint failure due to pent up moisture. Also can be used in storm sash, cupboards and closets. Stocked in four sizes.

### "61" FLOOR VARNISH

Pratt and Lambert "61" Floor Varnish has been a famous product for more than 50 years. Dries tack-free in 1 hour; to recoat or step on in 5 hours; for normal use in 12 hours. Never use shellac on floors under "61" Floor Varnish. Will cover approximately 700 ft. to the gallon. Choice of gloss, satin, or dull finish.

Gal. . . . . \$5.85  
Qt. . . . . 1.68  
Pt. . . . . .95  
½ Pt. . . . . .56

### VARNISH STAIN

Used on floors, woodwork and furniture, "61" Color Varnish does not hide the natural grain of the wood like ordinary varnish stain. Stocked in light and dark oak, mahogany, and walnut.

Qt. . . . . \$1.68  
Pt. . . . . .95  
½ Pt. . . . . .56

### "38" PALE TRIM VARNISH

New blond beauty for interior woodwork. Popular in today's decoration is blond woodwork finished with P & L "38" Pale Trim Varnish. Does not discolor blond or light colored woods. Use over P & L oil stain for modern decorative effects.

Gal. . . . . \$5.85  
Qt. . . . . 1.68

# TEXOLITE Rubberized

## Duraval Paint

The new luxury paint with gorgeous colors that are ready to use, or easy to intermix for dramatic custom effects. And that velvet look DURAVAL gives any room—it's so rich, so lustrous! Besides, it simply glides on with brush or roller. Because it's rubberized, DURAVAL smiles through scrubbing, after scrubbing, and is self-sealing. Spreads far,

too . . . hides well, is dust-free in 20 minutes, and leaves no "painty" odor.

### DRAMATIC COLORS

Palm Green, Sheffield Gray, Sunlight Yellow, Colonial Cream, Coral Rose, Russet Beige, Pottery Blue, April Green, Wedgewood Blue, Sea Island Peach, Ivory White, Gardenia White.

## THE HEATILATOR FIREPLACE

The Heatilator is a complete fireplace from hearth to chimney flue, requiring only the decorative masonry to complete the installation. In a single compact unit it includes the firebox, throat, damper, down-draft shelf and smoke dome. As a form for the masonry it eliminates all guess work, all the common causes of fireplace failure. By saving and circulating heat previously wasted up the chimney, the Heatilator extends the zone of comfort to every corner of the room. Most owners would gladly pay much more for the extra comfort.

# SUNBEAM LAWN SPRINKLERS . . . . . Every One a Leader!

## AUTOMATICALLY SET DISTANCE AND TYPE OF SPRAY

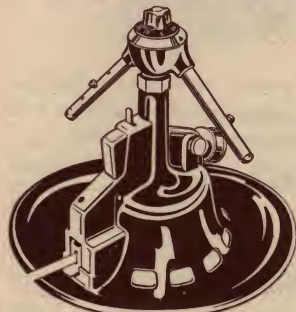

**Model K**  
**\$9.25**

Set it to sprinkle any area from 5 to 50 feet. America's most popular sprinkler. So easy to use, no muss or fuss. Automatically set distance and spray. Provides a natural rain-like shower that is best for all lawns. Model K delivers up to 500 gals. per hour. Gives deep soil saturation, so important in having a rich, thick lawn. All exposed brass parts chromium plated for enduring beauty. Ventilated base is heavily enameled, cold rolled steel. Phosphor bronze, water cushioned, oilless bearings.

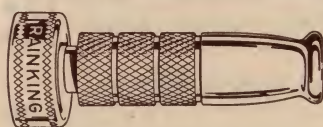

## SENSATIONAL AUTOMATIC TRAVELING SPRINKLER

**TRAVELS ANY COURSE UP TO 100 FT.  
SHUTS OFF AUTOMATICALLY**

Here's convenience you always wanted in a sprinkler. Answers every need! Does the right job every time! Set it! Forget it! Automatically shuts off at end of travel—or can be set to "stay on." Waters 5 to 50 ft. wide as it travels and gives thorough watering for deep soil saturation. Goes around trees without stopping or tipping over. All gears sealed in grease packed gear box. No water corrosion. Rustproof. Lightweight—easy to handle. Complete with two stakes and built-in stainless steel tape.

**Model K20**  
**\$39.50**

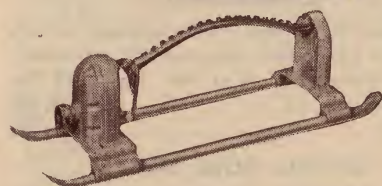

**No. NIA**  
**\$1.50**

Quickly adjusted from complete shut-off to fine spray, bullet stream or drenching downpour.

## New... SUNBEAM RAIN KING HOSE NOZZLE

Solid brass with lasting beauty of chrome plate. Leak proof . . . Tarnish proof . . . New-type construction permits easier cleaning and repacking.

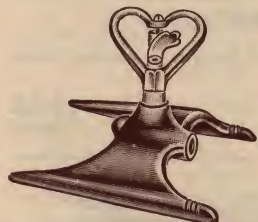

## THE AVON LAWN SPRINKLER

The finest oscillating sprinkler we have seen. Sweeps a gentle rain over an area of as much as 1500 ft. Works perfectly on ordinary water pressure.

**\$12.95**

## ALLENCO "BUSY" LAWN SPRINKLER

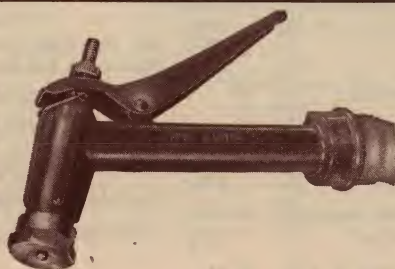

A mighty fine distributor of water. "Ideal" Sprinkler Head, cast iron frame and wing, rust-proof plated with the wing finished in red enamel. The "Busy" soaks the area evenly with rain-like drops. Waters a 37 ft. circle at 30 lbs. pressure. Sprays 3 3/4 gallons per minute.

**\$2.49**

## HOSEMASTER HOSE NOZZLE

Adjustable from fine mist-like spray to a heavy coarse spray. Handy lock for keeping nozzle adjusted to one type of spray. 3/4 inch hose thread, all brass valve arrangement.

**\$1.69**

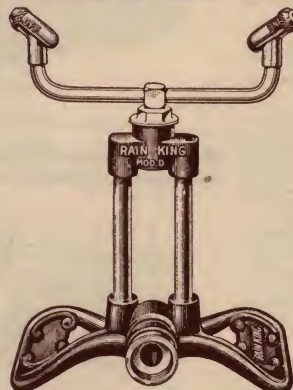

**Model H**  
**\$8.50**

## Outstanding for Any Sprinkling Job. Ideal for Newly Seeded Areas

Most sprinklers reduce the volume of water when set for misty spray, but Model H puts out more water—300 gallons an hour on 20 lbs. pressure. Nozzles also adjustable for coarse or medium shower. Sprinkles area up to 50 feet in diameter. Can be used for revolving or stationary sprinkling by simply turning lock wheel. Fittings are solid brass, chrome plated. Heavy baked on enamel finish. Ventilated cold roll steel base.

## AMERICA'S MOST ECONOMICAL QUALITY SPRINKLER

**Model D**  
**\$6.50**

For high quality at a low price buy Model D Sunbeam Rain King. Each nozzle a sprinkler in itself—adjustable for any size of spray. Sprinkler can be used for revolving or stationary operation to water circular areas, long narrow strips, hard-to-reach corners. Sprinkles areas up to 60 feet in diameter. Solid brass columns, arms, and nozzles—balance of sprinkler finished in enamel. Phosphor bronze bearings. Sturdy sled runner base. All sprinklers shown on this page are on display in our showrooms, for easy comparison and selection.

## KOROSEAL GARDEN HOSE

Made by Goodrich. 1/3 lighter than rubber hose. Koroseal Hose won't get sticky in hot weather. Not harmed by oil or grease. Thick wall construction prevents kinking. You can yank Koroseal around freely—it's really tough and can take it. Colors—Green or Red.

# REYNOLDS DO-IT-YOURSELF ALUMINUM

Reynolds Do-It-Yourself Aluminum is softer than tool steel, and so all ordinary hand tools can be applied to Do-It-Yourself Aluminum in the same manner as to materials classified in the "wood" category. While the user will be familiar with these tools, we can tell you that Aluminum sheet and foil cut readily with regular scissors or tin snips. Wood saws are satisfactory for cutting sheet, rod, tubing, angle or bar. Various hammers are indispensable in bending and forming Do-It-Yourself Aluminum. A ball pein hammer may be used to emboss sheets or bar. Regular Home Workshop power tools are suitable for working Reynolds Do-It-Yourself Aluminum. You can make any of the following and countless other items from stock members obtainable at our store:

AWNINGS  
BIRD CAGES  
BRACKETS  
CLOSET RODS  
COFFEE TABLES  
COOKIE SHEETS  
DESK LAMPS  
DRAPERY BRACKETS

DRAWER LINERS  
DUST PANS  
TACKLE BOXES  
FLASHING  
FLOWER STANDS  
FLUE COVERS  
GRASS CATCHERS  
HOUSE NUMBERS

KICK PLATES  
LAWN CARTS  
LAWN SIGNS  
MAIL BOXES  
SIGNS  
TV ANTENNAS  
SHELF TRAYS  
SHOE RACKS

TABLE LAMPS  
TIE RACKS  
TOOL BOXES  
TOWEL RACKS  
TRAY LINERS  
BRACES  
AWNINGS  
ROOF REPAIRS

## Make Your Own Aluminum Window Screens and Storms

Reynolds Do-It-Yourself Aluminum now opens up exciting new fields for the home craftsman. We have catalogs of plans and projects that are yours free for the asking. Stop in at our store and inspect the wide range of Aluminum sheets, tubes, angles, parts, etc., that are obtainable right from stock at very attractive prices.

### VIS-A-PART BOARD

Stores small parts conveniently—safely—neatly—inexpensively. Keeps small parts in plain sight, within easy reach. Eliminates time-wasting searches through drawers or bins. One quick glance locates the part you need. Costs much less than drawer or bin storage units of same capacity. Made of sturdy, attractive masonite. Has four holes for easy mounting. Jar holders are firmly riveted to board. Jar has a cover but has no lid.

12 Jar Unit .....	\$3.00
24 Jar Unit .....	5.95

## IT'S REALLY FUN TO SHOP AT THE FINGERLE LUMBER COMPANY

It's always fun to shop amid pleasant surroundings where stocks are large and complete—employees are helpful and friendly—and prices are always right. It's fun to shop where there is sound evidence of "good housekeeping" everywhere you look—where there is definite evidence of efficiency in operation! It's fun to "browse-shop" through our store, warehouses and sheds and watch our modern mechanical handling equipment do the job at hand easily, quickly . . . and . . . economically. Yes—it's even fun for most of us to walk through a modern lumber yard and breathe in that waft of fresh, clean pine odor that always seems to permeate the air.

There's lots to see in our yard—literally thousands of items to make your job easier and better. For instance—durable Redwood from the age-old forests in California—Genuine White Pine from the mountains of Idaho—soft textured Ponderosa Pine from high in the Sierra mountains—Superior Douglas Fir from the Cascade range in Oregon—beautiful Birch from Canada—luxurious Hardwoods from all over the world! Yes there's much to see! We do our best to keep current in our stocking of all worthwhile new materials that appear on the scene. You can generally see it first at the Fingerle Lumber Co.

### WE WELCOME SMALL ORDERS

A few people seem to have the mistaken idea that so-called "Small Orders" are not welcome in a large lumber yard. This is indeed far from the truth as far as we are concerned. We maintain a large organization to take care of every type of order that comes our way whether it calls for a million feet of lumber, a small piece of 2x4 to repair a boy's fond entry in the Soap Box Derby, or a 2-foot piece of shelving to add to your clothes closet storage. Remember that building material is our business and we like it and your building problem is our every-day-job.
